Dear Stony Run

I visited your store on Saturday June 6th in the late afternoon to purchase some stone for a small walkway between the curb and sidewalk at my home in Phoenixville. Your staff greeted me the instant I arrived and showed me to a handsome pile of stone. I was assisted by no less than four people as they moved stone, selected pieces, and offered advice as to installation and the products I would need. Before I was even done signing my name to the credit card receipt, the stone and materials had been loaded in my vehicle. I just wanted to write and say I really appreciate this level of service. If my experience is an indication of how you routinely do business, then I have no hesitation recommending you to the municipalities, engineers, and designers I work with. Thanks for the help.

ps: I installed the walkway on Sunday and it looks great!

Regards,
